TECHNICAL SKILLS

Frontend: React, TypeScript, Redux Toolkit, Tailwind CSS, SCSS
Backend & Data: Node.js, Express, REST APIs, PostgreSQL, Redis, Python
Tools & Testing: Git/GitHub, Docker, GitHub Actions, Vitest, Playwright, Postman

PROJECTS

CityGo: Full-Stack Tour Booking Platform
Independent project · live link· github
Developed and deployed a multi-service booking platform for city tours, comprising a customer-facing application, staff dashboard, shared API, and notification service. Deployed with Docker on a VPS, with separate staging and production environments managed through GitHub Actions.

- **Booking and payments:** Implemented server-side tour search and availability rules, with Stripe Payment Intents, webhook-driven booking creation, and server-side price calculation.
- **Administration:** Built staff workflows for role-based access, booking lifecycle management, guide assignment, payment tracking, and operational task generation.
- **Infrastructure:** Implemented queued email notifications using BullMQ and Redis; configured deployment workflows and monitoring with Prometheus, Grafana, and Loki.
- **Quality assurance:** Created a test plan, smoke-test checklist, structured defect reports, and a Postman API collection. Automated test coverage: Vitest and Playwright.

Technologies: React, TypeScript (dashboard), Node.js, Express, PostgreSQL, Knex.js, Supabase, Stripe, Redis/BullMQ, Docker, GitHub Actions.

EXPERIENCE

Teaching Assistant - Software Engineering Program
BrainStation · Toronto, ON, Canada

- Provided 1-on-1 technical support to 50+ students in JavaScript, React, Node.js, and Git.
- Reviewed student projects, and provided feedback on code structure, readability, and testing.
- Facilitated whiteboard sessions on problem-solving and algorithms, and supported student teams in using Git workflows and Agile practices.

EDUCATION

Diploma in Software Engineering
BrainStation · Canada
Master's Degree in Building and Civil Engineering
Vinnytsia National Technical University, Ukraine

ADDITIONAL

Languages: English (fluent), Ukrainian (native)
Professional development: BrainStation Artificial Intelligence course
Certificates: Selected coursework and certificates — View certificates
